

# MOST COMPREHENSIVE FACIAL

Med Beauty Cell Premium Deluxe Treatment, RM770 (120 mins)

## Youthful Skin For A Lifetime

All women want to preserve their youthful skin, but not all are willing to go under the knife to achieve it. Understanding this, The Spa and Med Beauty at The Saujana offers an anti-ageing facial treatment using the exclusive Cell Premium skincare range from Switzerland, which contains active plant stem cells.

### • WHAT'S THE SECRET?

The Ultra-Concentrated Anti-Aging Care Serum delivers the active plant stem cells as an ultra concentrated dose to the skin. It promotes energy metabolism, strengthens cell protection and improves the firmness and density of skin.

### • WHAT'S THE TREATMENT ABOUT?

A microdermabrasion machine (water pressure-based) gently removes dead skin cells. Then, an air pulsator treatment detoxes and prepares the skin. Next, the activity of the stem cell serum is maximised through the latest Ultrasonic technology combined with magnetic field and light therapies.

### • LUXURIOUS EXTRAS

Professionally trained therapists intersperse each step of the treatment with relaxing hand, arm and shoulder massages, ending with a deeply relaxing full facial massage.
