SKINCARE

Sustainable Medical Cosmetics

The Zurich dermatologist Dr. Harald Gerny founded the company Med Beauty Swiss in 1991 with the idea of combining medical active ingredients and cosmetic principles in order to develop effective skin care products and treatments with verifiable skin results.

Dermatological experience

During training and education abroad, Dr. Gerny discovered the need for effective products to treat different skin situations without the use of scalpels and medical procedures. With over 30 years of experience in dermatological practice, Dr. Gerny and his team are still developing products, procedures and applications for the prevention, treatment and care of the skin. Suitable care solutions are offered for all skin types and skin situations.

Swiss quality

All products are developed and manufactured in Switzerland. We attach particular importance to quality, sustainability, effectiveness and refrain from animal testing. **Made in Switzerland.**

Medicine and cosmetics

Our care products optimally combine the best of scientific knowledge and dermatological practice. We invest substantially in scientific research and product development based on the newest active agents and ingredients from leading Swiss biochemical laboratories.

Natural active substances and ingredients

Our cosmetic products are mainly composed on the basis of natural plant ingredients. This ensures a high compatibility and ensures a lasting effect by the combination with modern active substance carriers.

Cosmetics for men

The 12 products of the preventive Skin Care line strengthen the barrier function of men's skin. They prevent irritation after shaving, reduce the consequences of environmental stress and counteract premature skin aging.

Robust skin protection

Preventive Skin Care provides the right answers for healthy skin and reliable protection at the same time. We have specially designed the 12 preventive skin care products for men to improve skin health.

Excellent care, intensive protection

The care line optimizes the self-protection and provides intensive care at the same time. A reliable combination of natural substances provides your skin with essential nutrients.

Best external support

preventive Skin Care supports men's skin with exquisite herbal active ingredients. Magnolol has an anti-irritant effect. Detoxophane detoxifies and has an antioxidant effect. Finally, the Trimoist complex improves the barrier function and provides sufficient moisture.

Moisture pure, intense

preventive Skin Care Hyaluron Booster concentrate

Hyaluronic acid for intensive moisture

This active agent concentrate with hyaluronic acid provides pure moisture for the skin. The resilience, elasticity and moisture binding in the skin is immediately noticeably and visibly increased and improved.

Application

Apply a few drops to the fingertips in the morning and/or evening and gently massage into the cleansed face and neck area. Then apply the usual cream.

barrier function
of male skin

preventive Skin Care Cleansing Foam

Gentle cleansing against external influences

The preventive Skin Care Cleansing Foam is wonderfully refreshing and cleanses sensitive facial skin gently and with little irritation. Irritated or derailed skin conditions are soothed and prepared for subsequent care. The selected combination of Bisabolol, Trimoist and Detoxophane reduces irritation, soothes skin irritations and provides lasting freshness and moisture.

Application

Apply a small amount in the morning and evening with circular movements and rinse thoroughly with water.

preventive Skin Care Aloe Tonic

Antioxidants improve skin function

Relaxes the skin, reduces skin irritations and stimulates regeneration - the formulation of the preventive Skin Care Aloe Tonic (without alcohol) is rich of vitamins and trace elements and was specially developed for the sensitive skin areas of men. Aloe vera and panthenol soothe the skin. Detoxophane stimulates the skin's own ability to store moisture. This improves the elasticity, fresh cells can form.

Application

In the morning and evening after cleansing, spray onto the skin or onto a cotton wool pad and cleanse the face.

preventive Skin Care Enzyme Peel

Refinement of the complexion

Preventive Skin Care Enzyme Peel is a natural way to resistant skin and improved cell renewal without abrasive particles. It works on the basis of plant enzymes that stimulate significant improvements in skin metabolism. The skin is renewed faster and the outer skin layers are replaced. This allows active ingredients to penetrate faster and more efficiently.

Application

Apply 1 - 2 times a week. Apply powder to the palm of the hand, foam with water, apply evenly to the face with circular movements and rinse thoroughly with water.

preventive Skin Care works and protects

The highly efficient active agent concentrates of preventive Skin Care provide a strong concept against negative external influences and are an ideal basic and special care for robust men's skin. The ingredients have been ideally coordinated and complement each other perfectly. This keeps the skin healthy and protected from harmful influences.

Valuable active ingredient complexes on a natural basis soothe skin irritated by shaving or environmental stimuli. They strengthen the skin's barrier, protect the skin cells and increase the resistance. The result is a smooth, supple and healthy skin with a strong radiance.

preventive Skin Care Oilfree Moisturizer

Oil-free, caring and moisturizing

The light and fat-free preventive Skin Care Oilfree Moisturizer is ideal for men's skin. It provides lasting moisture and freshness without clogging the pores. The moisturizer soothes irritated skin and offers reliable protection against environmental influences. First lines and wrinkles are soothed.

Application

Can be used as care for normal to oily skin. Apply to face and neck morning and evening after cleansing and massage in gently. Ideal for irritated skin after shaving.

preventive Skin Care Oilfree Moisturizer SPF 15

Protection against harmful UV rays

The preventive Skin Care Oilfree Moisturizer SPF 15 is based on the preventive Skin Care Oilfree Moisturizer and with SPF 15 protects normal, dehydrated and slightly oily skin against UV-induced skin aging. Modern and well-tolerated light protection filters provide this additional protection. Soothes and moisturises irritated or derailed skin conditions and soothes first wrinkles and lines.

Application

Can be used as day care for normal to oily skin. Apply to face and neck in the morning after cleansing and massage in gently. Ideal for irritated skin after shaving.

preventive Skin Care Light Cream

Light care for normal and combination skin

The particularly light formulation of preventive Skin Care Light Cream is ideal for providing normal, dehydrated and combination skin with sufficient moisture. The skin visibly gains elasticity and firmness. The Tri-moist complex stimulates the skin's own protective function. Magnolol prevents skin irritations and has an antioxidant effect. Detoxophane protects the skin from harmful external influences.

Application

Apply morning and evening to face and neck after cleansing and massage in gently.

preventive Skin Care Rich Cream

Lots of moisture for dry skin types

The innovative formulation of grape seed and magnolia extract, enriched with hyaluronic acid and vitamins, tightens and strengthens the facial contours sustainably. Feelings of tension as well as irritations are reduced, the skin receives a protected, fresher and youthful radiance. Visible lines, fine lines and wrinkles are relieved.

Application

Apply morning and evening to face and neck after cleansing and massage in gently.

preventive Skin Care Extra Rich Cream

Rich care for very dry skin

The preventive Skin Care Extra Rich Cream is particularly rich and cares for the dry to very dry skin of men. It provides moisture and noticeably more suppleness. Wrinkles and fine lines are significantly reduced and feelings of tension are alleviated. High-quality almond and jojoba oil, natural beeswax and aloe vera help the derailed skin to regain its balance and ensure a fresher complexion.

Application

Apply morning and evening to face and neck after cleansing and massage in gently. Avoid aftershave if possible.

preventive Skin Care Eye Cream

Protection for the eye area with vitamin C

The particularly thin and sensitive skin around the eyes receives special protection and care based on natural and well-tolerated active ingredients. preventive Skin Care Eye Cream has a firming and regulating effect with vitamin C and grape seed extract. Reduces pigment spots, strengthens capillary vessels and protects against UV-induced skin aging.

Application

Apply a small amount of cream to the cleansed eye area in the morning and/or evening and pat in gently.

preventive Skin Care Hydracalm Mask

Freshness and moisture in high doses

Preventive Skin Care Hydracalm Mask has a strong moisturizing and soothing effect on men's dehydrated skin. Irritations are alleviated, redness and irritation are reduced. The modern, fat-free gel texture of the preventive Skin Care Hydracalm Mask is based on natural active ingredients such as aqua cacteen, aloe vera, panthenol, basil and schisandra. An intensive freshness and moisture booster with depth effect.

Application

If necessary, apply over a large area on cleansed skin, leave on for 5 minutes and remove residues with Aloe Tonic.

preventive Skin Care Hand Protection

Anti-aging treatment for demanding hands

The modern, caring and non-greasy formulation of preventive Skin Care Hand Protection without glycerin and is based on natural beeswax in combination with a plant-based active ingredient complex with edelweiss extract, cress, ribwort plantain, vitamins C and E as well as soya lecithin. The hand cream protects and regenerates stressed male hands and ensures softer, smoother skin. It also reduces pigmentation spots.

Application

Apply to cleansed hands several times a day as required and massage in gently.
